Note: Many of these calculations have been produced without the aid of the SIMs, as the result of a systems failure when downloading the files. Therefore, these figures should be considered as provisional.

\*\* these figures are the best representation available at the time of publication, such is the complexity of the Science entries.

The figures for Maths and English include the early entry examinations taken last year to provide a full picture of the outcomes for Year 11.

The BTEC results will follow in September but are, again, very successful, contributing to the A\*-C pass rate.
